## Windstream's Growing Kinetic Market

Kinetic by Windstream provides best-in-class Internet and entertainment experiences, delivering more speed to more customers so they can readily stream, surf and download on multiple devices at the same time.

Kinetic's premium service portfolio includes:

- **Kinetic Internet:** Flexible plans on a reliable network with speeds of 25-100 Mbps or higher for streaming video, downloading music and photos and connecting with friends and family.
- **Kinetic Gig:** Ultra-fast speeds of 1 Gbps delivered over a 100 percent fiber-optic network, enabling the fastest access to all online entertainment and business needs.
- **Kinetic Business Solutions:** Customizable solutions that ensure business continuity, advanced communications and maximum reliability for small and medium-sized businesses.

Talk to your TM's today to discuss how you can grow your Windstream business.
